The Hon. Mr Justice Supperstone,

Pre Action Notice

As a public interest and English Constitutional Law Group (Open Source Law) “White Pen Dragons” have made an application for Judicial Review.

The remedy we have sought is to relieve the English Constitutional crisis, it can only be granted by an Independent Judiciary – That is to VOID (not repeal) The European Communities Act of 1972. Parliament cannot void the statute (it can only repeal it), and to make the ECA 1972 void would address the non-disclosure of the finding of FCO 30/1048 Legal & Constitutional implications on entry of U.K into EEC and various other constitutional issues. Voiding the ECA 1972 addresses three issues

1. Once made void it's legality is made void with it, as if it never existed,
2. The Vienna Convention of the law of treaties nullity clauses are induced,
3. All treaties, payments and liabilities to the EU are null and void.

That is to say, the Government cannot offer avoidance of ECA 1972 only the Judiciary can on successful application by way of Judicial Review. However, by way of notice there is a damages claim of 1% of the total fiscal losses due to fraud and or, maladministration, misfeasance in public office.

The Law of the Land stands above politics and does not recognise politics or political parties.

Yours sincerely
